# Briefing Belgian Clubs Relay

All competitors should wear their provided bib numbers.

No warm up in the forest or along the cycling track: competition area. Use the arena or the road to the parking.

Briefing at 9:15, mass start at 9:30, further mass starts will be announced, finish closes at 15:00.

Be careful when crossing the road and cycling track.

All courses have a map flip followed by a spectator passage (no marked route).
Distance map flip to finish: 1000-1500m

Finishing runners should take the leftmost lane when entering the arena through the gate, punch the finish control, then touch the next runner to pass the relay.

Runners receive their maps when entering the change-over area. Check your bib number, but do not look at the map.

The first (ranked) team to cross the finish line wins.
