DETAILS OF THE MAP

Last update : Spring 2022

Contours : 2,5 m

Control descriptions appear on the map (EXCEPT FOR THE BLACK VERY LONG COURSE !)

TERRAIN FEATURES

- MANDATORY BRIDGE

!!! ONLY FOR THE COURSES BLACK VERY LONG AND BLACK LONG !!!

Runners are STRICTLY REQUIRED to use the footbridge to cross the major intersection ("*Quatre Bras*") to the north of the map. This passage is marked on the map with the "mandatory passage" symbol and mentioned in the control descriptions. No specific marking will be installed on the terrain to guide you to the footbridge. Nevertheless, the course marking has been designed in such a way that passing through the footbridge is entirely logical.

- TREE TRUNCKS

Not all fallen tree trunks are systematically represented on the map. The cartographer made a selection based on the state of decomposition of the trunks.

- FINISH CORRIDOR

Runners are requested to **strictly follow the finish corridor** marked on the map in order to preserve the condition of the grass. This corridor will be clearly marked on the ground with tape.

The finish of the **green course** differs from that of the other courses. It is located right next to the CC. However, the start remains the same as the other courses.
